PROFILE

I am a 22-year-old Full-Stack and WordPress Developer from Belgrade, Serbia, with solid experience in building responsive websites and web applications using PHP, JavaScript, HTML, CSS, and WordPress. Alongside development, I have worked as a QA Engineer, ensuring software reliability through testing and optimization. Passionate about clean design, functionality, and user experience, I strive to deliver scalable and efficient digital solutions while continuously growing my skills.

SKILLS

- Front-End Development – HTML, CSS, JavaScript
- PHP
- WordPress
- QA & Testing
- Responsive Web Design
- MySQL
- Online research
- Problem solving
- Communication

WORK EXPERIENCE

NoviSplet - Ljubljana, Slovenia

2023 - 2024

Full-Stack & WordPress Developer

- Developed responsive, user-friendly, and dynamic web interfaces and applications using HTML, CSS, JavaScript, and PHP, ensuring cross-browser compatibility and accessibility.
- Collaborated with designers and other developers to deliver seamless, visually appealing, and high-performing websites.
- Optimized both front-end and back-end performance, reducing load times and improving overall user experience.
- Built and customized WordPress themes and plugins, implementing scalable features and ensuring maintainability.
- Managed website deployments, security updates, and performance tuning for improved reliability and stability.
- Provided ongoing maintenance and support for multiple published projects, ensuring continuous functionality, timely updates, and client satisfaction.

Finiti Solutions - Belgrade, Serbia

2025 - PRESENT

QA Engineer

- Designed and executed manual and automated test cases, identifying critical issues and ensuring software quality before release.
- Performed functional, regression, and usability testing across multiple platforms and devices.
- Worked closely with developers to resolve defects quickly, improving overall product stability and user satisfaction.
- Documented test results and created detailed bug reports, contributing to improved communication between QA and development teams.

LANGUAGES

- English (Fluent)
- Serbian (Native)
